## Technical Data Sheet

# Purisan™ Peroxide (Chlorine-free) Tablet

### Description

Chlorine-free solid disinfectant tablet for the shock treatment or routine maintenance to restore the clarity of swimming pool water.

### Characteristics

Physical Appearance: Solid white tablets (20 gms).

Odour: None

### Instructions For Use

Dose to pool surface water skimmers or by using a suitable dispenser.

For shock disinfection add 1kg per 50m<sup>3</sup> (50,000 litres or 11000 Imp Gals) of pool water

For maintenance add 200-300gms per 50m<sup>3</sup> (50,000 litres or 11000 Imp Gals) of pool water every 2 days

### Comments

To avoid the appearance of algae, water treatment must include dosing an algaecide. Water pH must be maintained in the range 7.2 – 7.6 and this should be checked at both ends of the pool daily.

The free chlorine level should be maintained in the range 0.5 – 1.5 ppm (parts per million).

Recommended dosages are approximate and depend on water hardness, bather load and the weather.

Oxygen Index must be within the range 2 – 3 ppm
