Product Information Sheet

PURISAN™ pH Increaser

pH +

PLUS

Healthy pool water pure & simple...!

Typical Label Information Displayed

PURISAN™ pH Increaser (Net Wgt)
(Sodium Carbonate – Soda Ash – pH Plus)

Application: NEVER MIX CHEMICALS TOGETHER. Use this product to raise pH in swimming pools & spas. Test water to determine pH value. If the pH is below the required range of 7.2 – 7.6 add this product at the rate of 500 gms per 45000 Ltr swimming pool water (Spas: 10 gms per 1000 Ltr spa water). Pre-dissolve in warm water in a clean plastic bucket & broadcast evenly over pool surface with pump running. Continue circulation and re-test & re-apply if necessary after 24 hours. Do not allow bathing during application or for up to 4 hours afterwards depending upon pool size and turnover time.

WARNING

Causes Serious Eye Irritation.

Keep locked up and out of the reach of children. Do not breathe dust. Avoid contact with skin. Wash thoroughly after handling. Wear protective clothing / protective gloves eye protection / face protection. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do so. Continue rinsing. IF ON SKIN (or hair): Wash with plenty of soap and water / shower.
IF SWALLOWED: DO NOT INDUCE VOMITING unless advised to do so by medical personnel. Clean out mouth with water. Give water to drink. Get medical attention immediately. Never give anything by mouth to an unconscious person.
