3. HAZARDS IDENTIFICATION

Causes burns. Harmful if swallowed. Very toxic to aquatic organisms

4. FIRST AID MEASURES

Inhalation	Provide fresh air, warmth and rest, preferably in a comfortable sitting position. Seek medical attention.
Skin contact	Remove contaminated clothing. Rinse skin immediately with plenty of water. If skin irritation persists, seek medical attention.
Eye contact	Flush eyes with cold flowing water for at least 20 minutes. Seek medical attention immediately.
Ingestion	Rinse mouth thoroughly. DO NOT INDUCE VOMITING. DO NOT GIVE ANYTHING BY MOUTH TO AN UNCONSCIOUS PERSON. Seek medical attention.
Note	When seeking medical attention, always show the product label.

5. FIRE-FIGHTING MEASURES

Suitable extinguishing media:	Water deluge or CO ₂ .
Unsuitable extinguishing media:	Dry powder extinguishers or foams.
Special exposure hazards in fire:	Fire causes formation of toxic gases
Required special protective equipment for fire fighters:	Use of self-contained breathing apparatus to prevent contact with skin and eyes.

6. ACCIDENTAL RELEASE MEASURES

Personal precautions:	Use appropriate personal protective equipment as detailed in section 8.
Environmental precautions:	Do not allow runoff to sewer. If material has entered surface drains, it may be necessary to inform local authorities.
Methods for cleaning:	Provide ventilation and confine spill. Collect and reclaim or dispose in vented, dry, clean containers as hazardous waste. Containers with collected spillage must be properly labelled with correct contents and hazard symbol. Sweep up all residues using designated cleaning equipment.

7. HANDLING AND STORAGE

Handling:	Ventilate well. Avoid breathing vapours. Use approved respirator if air contamination is above accepted level. Do not use in confined spaces without adequate ventilation and/or respirator. Avoid spilling, skin and eye contact.
Storage:	Keep in cool, dry, ventilated storage and closed containers. Keep containers tightly closed. Protect from light, including direct sunrays. Keep away from heat, sparks and open flame

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Suggested limits:	No exposure limits noted for ingredient(s). It is recommended that exposure limits for chlorine (8 hr TWA 0.5 ppm, 1.5 mgm ⁻³ ; 15 mins STEL 1 ppm, 2.9 mgm ⁻³) be applied to minimise risks associated with this product.
General:	Use engineering controls to reduce air contamination to permissible exposure level. Alternatively where this cannot be achieved, handle in naturally well-ventilated area.
Respiratory protection	Use respiratory protection for general dust inhalation protection.
Hand protection (type of gloves, etc)	Wear suitable chemical resistant gloves when handling this product.
Skin protection	Wear suitable chemical resistant clothing to protect exposed skin.
Eye protection	Wear goggles or safety glasses with side shields when handling this product.
